Engineer Kinross Fort Knox**

Ed Fogels, Deputy Commissioner ADNR

FORT KNOX

*Responsible stewardship isn't just a business
practice - it's our way of life.*

It is an honor to be entrusted with protecting something precious. At Fort Knox, we have the privilege of safeguarding some of Alaska's most valued resources - and that's not referring to the gold we produce. The people we employ and the land we mine are highly valued both within our organization and within the community.
