August 21, 2015

The Honorable Bill Walker
Office of the Governor
P.O. Box 110001
Juneau, AK 99811-0001

Re: Akiachak Native Community Litigation

Dear Governor Walker:

The Resource Development Council for Alaska, Inc. (RDC) is writing to urge your administration to appeal the Akiachak Native Community lawsuit that, along with a Bureau of Indian Affairs’ (BIA) final rule effective January 22, 2015, would result in the establishment of additional trust land in Alaska. It is imperative that the U.S. District Court for the District of Columbia be appealed to achieve a final resolution on this critical issue.

RDC is a statewide business association comprised of individuals and companies from Alaska’s oil and gas, mining, forest products, tourism and fisheries industries. RDC’s membership includes Alaska Native Corporations, local communities, organized labor, and industry support firms. RDC’s purpose is to encourage a strong, diversified private sector in Alaska and expand the state’s economic base through the responsible development of our natural resources.

The federal court held that the Alaska Native Claims Settlement Act (ANCSA) did not repeal the Secretary of the Interior’s authority to take lands into trust pursuant to another statute, Section 5 of the Indian Reorganization Act of 1934. The court further held that the Alaska exception diminished the privileges and immunities of Alaska tribes relative to other tribes. As a result, the federal court has determined that tribes can petition to place their lands in trust under the federal government. This could create a patchwork of governmental jurisdiction in Alaska that further complicate and threaten community and resource development, block access to rights and property, reduce tax revenues, undermine state and local regulation, impact infrastructure development, and impede state management of fish and game resources.

If the court’s decision is allowed to stand, it will transfer primary jurisdiction over land taken into trust from the State of Alaska to the federal government and the affected Indian tribe. With more than 200 entities in Alaska identified as tribes by the BIA, the land under trust could expand in magnitude with unintended consequences across the state, including potential impacts to a future gasoline in our great state.

ANCSA states in Chapter 33, 1601 (b), “The settlement should be accomplished rapidly, with certainty, in conformity with the real economic and social needs of Natives, without litigation, with maximum participation by Natives in decisions affecting their rights and property, without establishing any permanent racially defined institutions, rights, privileges, or obligations, without creating a reservation system or lengthy wardship or trusteeship, and without adding to the categories of property and institutions enjoying special tax privileges or to the legislation establishing special relationships between the United States Government and the State of Alaska.”
The 37th Annual Alaska Resources Conference will provide timely updates on new projects, address key opportunities and challenges, and consider the implications of state and federal policies on Alaska's oil and gas, mining, fishing, tourism, and forest industries.

The event will also feature the latest forecasts and updates on Alaska's resource development industries, as well as how companies are navigating the current economy.

Over 1,000 people are expected to register and attend Alaska's most established and highest profile resource development forum of the year. Attendees will include decision-makers from across all resource industries, support sectors, Native corporations, federal, state, and local government agencies, as well as educators and students.
Event Sponsorship & Exhibit Opportunities

Platinum Sponsor $5,000

– Ten individual registrations to the conference (Up to $4,750 value)
– Half-page space in the conference program*
– Sponsor recognition in all conference communications and the Resource Review newsletter
– Display of your company logo on screens at the conference**

* Due Monday, October 31st, send to resources@akrdc.org. Dimensions: 7.25"w x 4.5"h.

Cosponsor $3,000

– Six individual registrations to the conference (Up to $2,850 value)
– Quarter-page space in the conference program*
– Sponsor recognition in all conference communications and the Resource Review newsletter
– Display of your company logo on screens at the conference**

*Due Monday, October 31st, send to resources@akrdc.org. Dimensions: 3.5"w x 4.5"h.

General Sponsor $2,000

– Four registrations to the conference (Up to $1,900 value)
– Sponsor recognition in all conference communications and the Resource Review newsletter
– Display of your company logo on screens at the conference**

Underwriter $1,250

– Two registrations to the conference (Up to $950 value)
– Sponsor recognition in all conference communications and the Resource Review newsletter
– Display of your company logo on screens at the conference**

**Logos due to resources@akrdc.org by November 4th

Exhibitor $1,200 (Member), $1,500 (Non-member) SOLD OUT LAST FIVE YEARS!

– Exhibit space at the conference*
– Includes one conference registration (Up to $475 value)
– Recognition on program insert

* Reserve early as space is limited. Exhibit hall sells out quickly.

Return sponsorship form by Friday, October 7th to be listed in the online brochure.
Specialty Sponsorship Opportunities

All specialty sponsorships receive special recognition and display of company logo!
Sponsorship and Exhibitor payment options are also available online at akrdc.org.

**Luncheon Sponsor** (Wednesday or Thursday) **$6,000 each SOLD OUT!**
Largest attraction of the conference featuring keynote speakers and networking lunch.

**Eye-Opener Breakfast** (Wednesday or Thursday) **$5,000 each ONE REMAINING**
Every attendee’s first stop! A warm buffet with a wide variety of breakfast fare.

**Morning Breaks** (Wednesday or Thursday) **$5,000 each SOLD OUT!**
The conference stops for these popular breaks. Advertise your company with our specially-designed breaks!

**Wednesday Afternoon Break** **$5,000 SOLD OUT!**
Network at an old-fashioned ice cream social event – a big crowd pleaser! Your logo displayed during the break.

**Thursday Send-Off Toast $4,000**
Champagne and sparkling cider provide an elegant conclusion to Alaska’s premier conference on resource development. Sponsor is welcome to deliver closing toast.

**Centerpiece Sponsor $2,500 SOLD OUT!**
Personalized arrangements provided by the sponsor at each table.

**Espresso Cart Sponsor $3,500**
A big hit among conference attendees with lattes, mochas, and specialty teas. Your company logo on every cup!

**Charging Station Sponsor $3,500**
A high visibility stop during the conference for attendees needing to charge their phones and tablets.

**RDC Grand Raffle**
Donate a prize of your choice for the popular drawing held at the close of the conference.

Please fill out the following information and email to resources@akrdc.org or fax to (907) 276-3887. RDC will send an invoice or gladly accept credit card payments. Questions? Call (907) 276-0700.

The Honorable Lisa Murkowski, Chairman
U.S. Senate Energy and Natural Resources Committee
304 Dirksen Senate Building
Washington, D.C. 20510

Re: Testimony for the record for the September 22, 2016 Senate Energy and Natural Resources Committee Hearing: S. 3203, S. 3204, S. 3273

Dear Senator Murkowski:

The Resource Development Council for Alaska, Inc. (RDC) is writing to provide a written statement for the record in advance of the September 22, 2016 Senate Energy and Natural Resources Committee Hearing, which will include Senate bills S. 3203, S. 3204, S. 3273.

RDC is an Alaska-based business association comprised of individuals and companies from Alaska’s oil and gas, mining, forest products, tourism and fisheries industries. RDC’s membership includes Alaska Native Corporations, local communities, organized labor, and industry support firms. RDC’s purpose is to encourage a strong, diversified private sector in Alaska and expand the state’s economic base through the responsible development of our natural resources.

RDC writes to comment on the following legislation:

S. 3203, the Alaska Economic Development and Access to Resources Act

RDC thanks you for the introduction of S. 3203, Title I – Fill TAPS, Title II – Outer Continental Shelf, Title III – Federal Onshore, Title IV – Mining, and Title V – Forestry, and is on the record in support of sections of the bill already.

TITLE I – FILL TAPS

The Trans-Alaska Pipeline System (TAPS) has played a critical role in our nation’s energy security, carrying more than 17 billion barrels of oil to West Coast markets. It is the economic lifeblood of Alaska’s economy and a critical link to the nation’s long-term energy security. One cannot overstate the importance of oil and gas to Alaska. Oil production and the spending of the state’s oil revenues account for up to one half of the economic activity in Alaska. Oil revenues provide and fund thousands of private and public sector jobs, as well as critical public services and infrastructure. It’s clear that Alaskans and our state’s economy would benefit significantly from increased oil production. In fact, the very concept of Alaska’s statehood is predicated on the development of natural resources.
More than five decades ago when Alaska statehood was debated, many politicians in Washington, D.C. doubted this northern territory could build an economy and contribute to the union. Alaskans joined together to convince Congress that development of Alaska’s vast resources could establish and sustain a strong private sector economy. Ultimately Congress admitted Alaska to the Union. We remind federal policy makers that Alaska was allowed to join the union because of the expectation that the development of our natural resources would sustain the economy. Now, Alaska’s economic lifeline, TAPS, is starved for oil. It’s not because Alaska has depleted its natural resources. In fact, there is more oil in place onshore and offshore the North Slope than what has been developed since statehood. The challenge is achieving access to the resource.

TITLE II – OUTER CONTINENTAL SHELF

The federal government estimates there are 23.6 billion barrels of technically recoverable oil and about 104.4 trillion cubic feet of technically recoverable natural gas in the Chukchi and Beaufort sea planning areas. The Chukchi Sea itself is considered the most promising undeveloped energy basin in America with only several areas in the world that may offer higher potential. The Alaska Arctic Outer Continental Shelf (OCS) likely constitutes the eighth largest oil reserve in the world, putting it above Nigeria, Libya, Russia, and Norway. In addition, it is estimated that economic activity from the development of conventional energy reserves beneath the Chukchi and Beaufort seas would create an annual average of 54,700 jobs nationwide (35,000 in Alaska) with a cumulative payroll of $154 billion over the next 50 years. Moreover, government revenues generated from Alaska OCS production could reach nearly $200 billion. It is imperative to move forward with exploration activities in the Alaska OCS. Development and production of Arctic energy resources will be needed to offset declining Lower 48 production projected to begin in the coming decades.

TITLE III – FEDERAL ONSHORE

The Federal onshore oil and gas resources will be vital to refilling TAPS and increasing our nation’s energy security. The U.S. Geological Service estimates the National Petroleum Reserve – Alaska (NPR-A) contains 896 million barrels of oil, and 53 trillion cubic feet of undiscovered conventional natural gas within NPR-A and adjacent state waters.

Moreover, the coastal plain of the Arctic National Wildlife Refuge (ANWR) is estimated to contain about 10.5 billion barrels of oil.

TITLE IV – MINING

Previously, RDC went on the record expressing concerns with an often ignored provision of the Alaska National Interest Land Claims Act (ANILCA), the “no more” clause.

RDC is concerned Federal land managers have routinely ignored Section 1326(b), a key provision of ANILCA which states that “no further studies of federal lands in the State of Alaska for the single purpose of considering the establishment of a conservation system unit ... or for related or similar purposes shall be conducted unless authorized by this Act or further Act of Congress.” RDC believes S. 3203 TITLE IV – MINING, Section 403 ANILCA clarification: Limitation on land use designations, provides clarification and an expressed definition.

TITLE V - FORESTRY

RDC is also on record opposing the Roadless Rule in Alaska and encouraging a revitalized forest industry in the Southeast Alaska, including the establishment of a Tongass State Forest.
Specific to TITLE V – FORESTRY, Section 502. Alaska Mental Health Trust land exchange, RDC urges prompt passage.

For nearly a decade, the Alaska Mental Health Trust has been seeking to exchange with the U.S. Forest Service 17,341 acres of forested Trust lands near Ketchikan, Juneau, Petersburg, Wrangell, and Sitka in exchange for Forest Service lands of equal value in the Ketchikan Gateway Borough and on Prince of Wales Island.

The exchange would minimize or avoid potential impacts to nearby communities while helping to sustain what remains of the timber industry in Southeast Alaska by providing more timber lands that could be managed on a sustained yield basis. This timber is critical to providing industry a bridge in transitioning to young growth timber.

S. 3204, the King Cove Road Land Exchange Act

RDC joins the Alaska delegation, thousands of Alaskans, and many business and trade associations, including the ANCSA Regional Corporation CEO’s Association in support of the King Cove Road exchange.

For more than 15 years RDC has urged approval of the King Cove land exchange. RDC strongly believes that a road corridor from King Cove to the all-weather airport at Cold Bay is in the public interest. This is a public safety and human rights issue, which should be given the highest priority.

S. 3273, the Alaska Native Claims Settlement Improvement Act of 2016

RDC is compelled to support this bill as it contains provisions and policies that will benefit village and Regional Native corporations, and thousands of Alaska Native shareholders. It also enforces benefits and entitlements to Alaska Native Corporations expressly contained in the Alaska Native Claims Settlement Act when it was passed in 1971.

Conclusion

RDC applauds the introduction of S. 3203, S. 3204, and S. 3272 as key legislation to improve and enhance economic and community opportunities for Alaska and the nation.

Thank you for the opportunity to provide testimony on this important legislation.

Sincerely,

Marleanna Hall
Executive Director
ANILCA TRAINING

Anyone who wants to understand Alaska and its future must understand ANILCA...
the Alaska National Interest Lands Conservation Act of 1980

November 14-15, 2016, 8:00 am to 4:30 pm
BLM Campbell Creek Science Center
5600 Science Center Drive, Anchorage, Alaska

Two-Day Course includes:

- Summary of Alaska’s land history from Territorial days to present
- Context of ANILCA’s passage – including major constituents, issues of the day, and the “Great Compromise”
- Overview of the ANILCA statute
- Key access provisions of ANILCA, including access for traditional activities, subsistence, inholdings, and transportation & utility systems
- Subsistence on federal lands
- Wilderness reviews and management
- ANILCA implementation, including federal land planning
- Case Studies

Presenters: Federal agency representatives and others with extensive ANILCA experience.

Materials included: Printed and electronic copies of ANILCA & Amendments; presentation
documents; Alaska in Maps - A Thematic Atlas; and portable USB drive with relevant laws,
regulations and other supporting documents. Discussion sessions on ANILCA issues take
place both days during lunch – lunch, coffee, and continental breakfast provided.

Recommended for: Federal agencies with ANILCA implementation responsibilities, state
and local land and resource managers, Native corporations, rural residents and inholders, as
well as community leaders, policy makers, consultants, the academic community and the
interested public.

Objective: A greater understanding of ANILCA and its influence on conservation policy,
business opportunities, resource development, and public land management in Alaska.
Cost: General Registration $575  
Young Professionals (40 and under) $400*  
Students $200*  
* Discounts for Young Professional and Students not available to federal employees.

Working lunch: Discussion sessions on ANILCA issues take place both days during lunch — lunch, coffee, and continental breakfast provided.

Registration closes one week in advance, unless already full. 35 participants minimum; 55 participants maximum.

To Register, go to the Institute of the North website:
www.institutenorth.org

Course questions? Contact Roger Pearson, ANILCA Training organizer and moderator, at rpearson@institutenorth.org

Registration and logistical questions? Contact Nils Andreassen at 907-786-6324, or nandreassen@institutenorth.org
