

# PUTTING MORE OIL IN TAPS

---

*What will it take?*

*If you want it built right  
and maintained properly*

---

**HIRE US!!!**

# ALASKA LABOR AND OIL

- We built TAPs
- Mano Frey and Jim Sampson integral in formation of Arctic Power, advocating for ANWR
- A long record of safety and competency maintaining oil infrastructure along TAPs and across the North Slope
- Supported and advocated for EVERY single lease sale or exploration opportunity in the state for decades

# WE ARE TRAINING . . . ALWAYS!

*Tens of millions of dollars of training infrastructure across the state, and millions in annual private investment to train and operate our training programs*

# TRAINING BY THE NUMBERS

## ALASKANS TRAINED ANNUALLY

- ▶ 2000 apprentices in the JATC system at any given time. Turning out 4-500 new journey level workers each year
- ▶ And about 2500 union members participate in Journeyman upgrade courses each year
- ▶ Joint pipeline craft training of 75-90 students a year for past nine years at FPTC
- ▶ Other related outreach classes through FPTC train more than 1000 a year in things like health & safety, intro to trades, process tech, and more

## FUNDING & INFRASTRUCTURE

- ▶ JATC's operate 15 postsecondary training schools across the state
- ▶ Over \$30 million of infrastructure and more than \$12 million a year in contributions negotiated between unions and their private sector employers, providing a tuition-free education to apprentices
- ▶ Private-public-union partnership with the Fairbanks Pipeline Training Center

**OVER 300 YEARS OF COMBINED EXPERIENCE BUILDING AND WORKING  
ON PIPELINES ACROSS ALASKA**

# ANNUAL PIPELINE TRAINING

**2008**

**NOW**

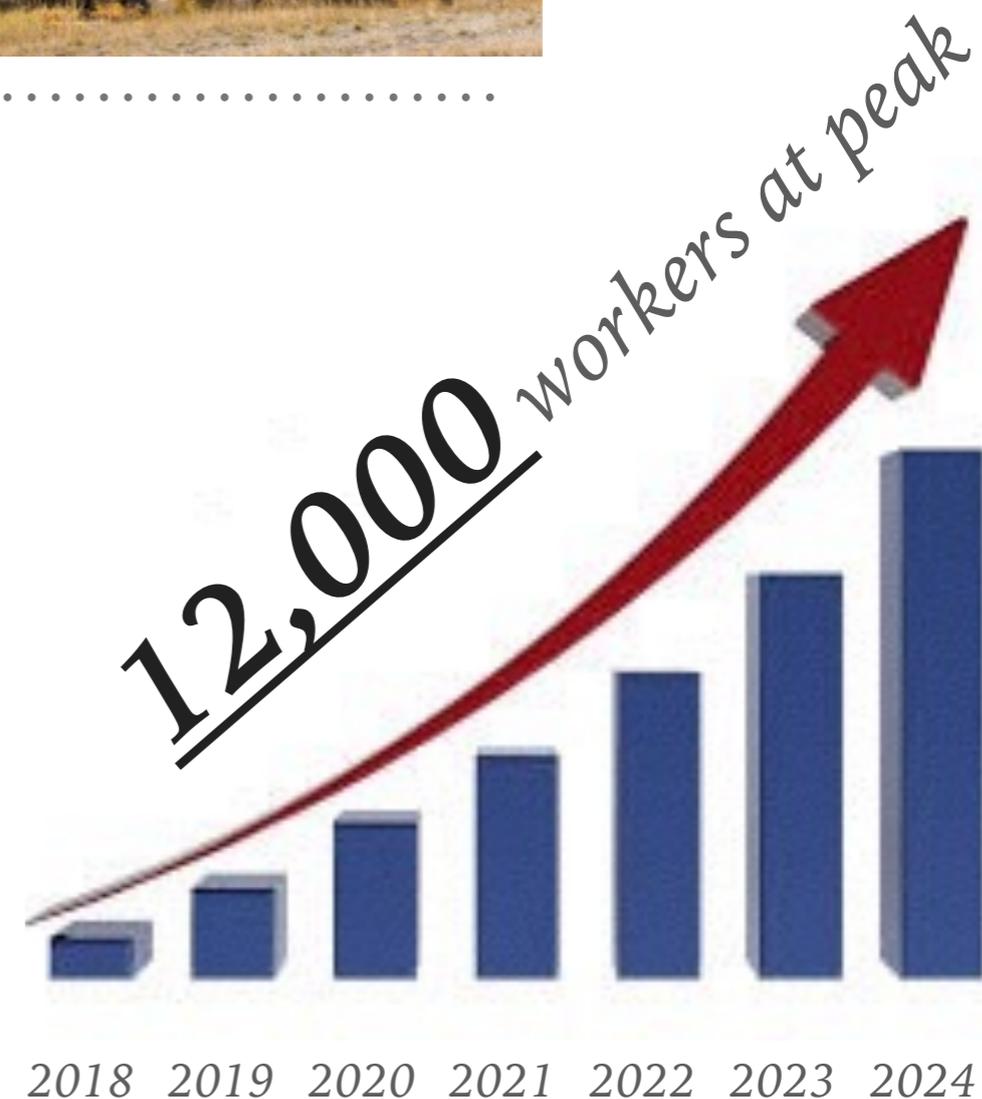

# SCALING EFFICIENCY

## FEDERALLY REGISTERED AND JOINTLY MANAGED LABOR-MANAGEMENT TRAINING TRUST FUNDS

- All of our apprenticeship programs are the gold standard for training Alaskans - for 70 years.
- We have massive infrastructure around the state and can ramp up our programs to meet demand in a short period of time
- Flexibility and the ability to tailor training and curriculum for project specifics

# 100% ALASKA HIRE

.....

*Using Alaska Unions, is the foolproof way to assure maximum Alaska hire*

**SINGLE MOST  
IMPORTANT THING  
IT WILL TAKE  
TO GET MORE OIL  
IN THE PIPELINE...**

---

*What will it take?*

# A STATE FISCAL PLAN

## **WITHOUT ONE :**

- Oil tax regime will always be under scrutiny, and subject to change
- Tax credit payments in limbo
- No adequate capital funds to build necessary infrastructure for future resource development

## **WITH ONE :**

- Investment, exploration and production climate has stability, predictability, and certainty
- Resource Development surges
- And maybe, just maybe, we finally build that ever elusive GAS PIPELINE!
- We all live happily ever after

ority

RITY

*Of all those iterations, can you identify one time when you had the leaders of the world's two largest economies approving of and witnessing the signing of a deal?*

# NEVER !!

---

# GET ON BOARD!

## WE'VE GOT :

- The buyer
- The owners (state of AK)
- The funders
- An \$800 billion sovereign wealth fund
- An anchor client who wants a 50+ year supply of LNG as they quickly move away from coal

# THIS IS THE JUMP START THE NORTH SLOPE NEEDS

---

- New big activity will create more activity and will lead to:
    - More gas
    - More oil
    - More development
    - More revenue for industry and the state
    - 1,000,000 barrels a day?
- 

## NOW IS THE TIME!

# PERFECT TIME TO IMPROVE PROCESS

---

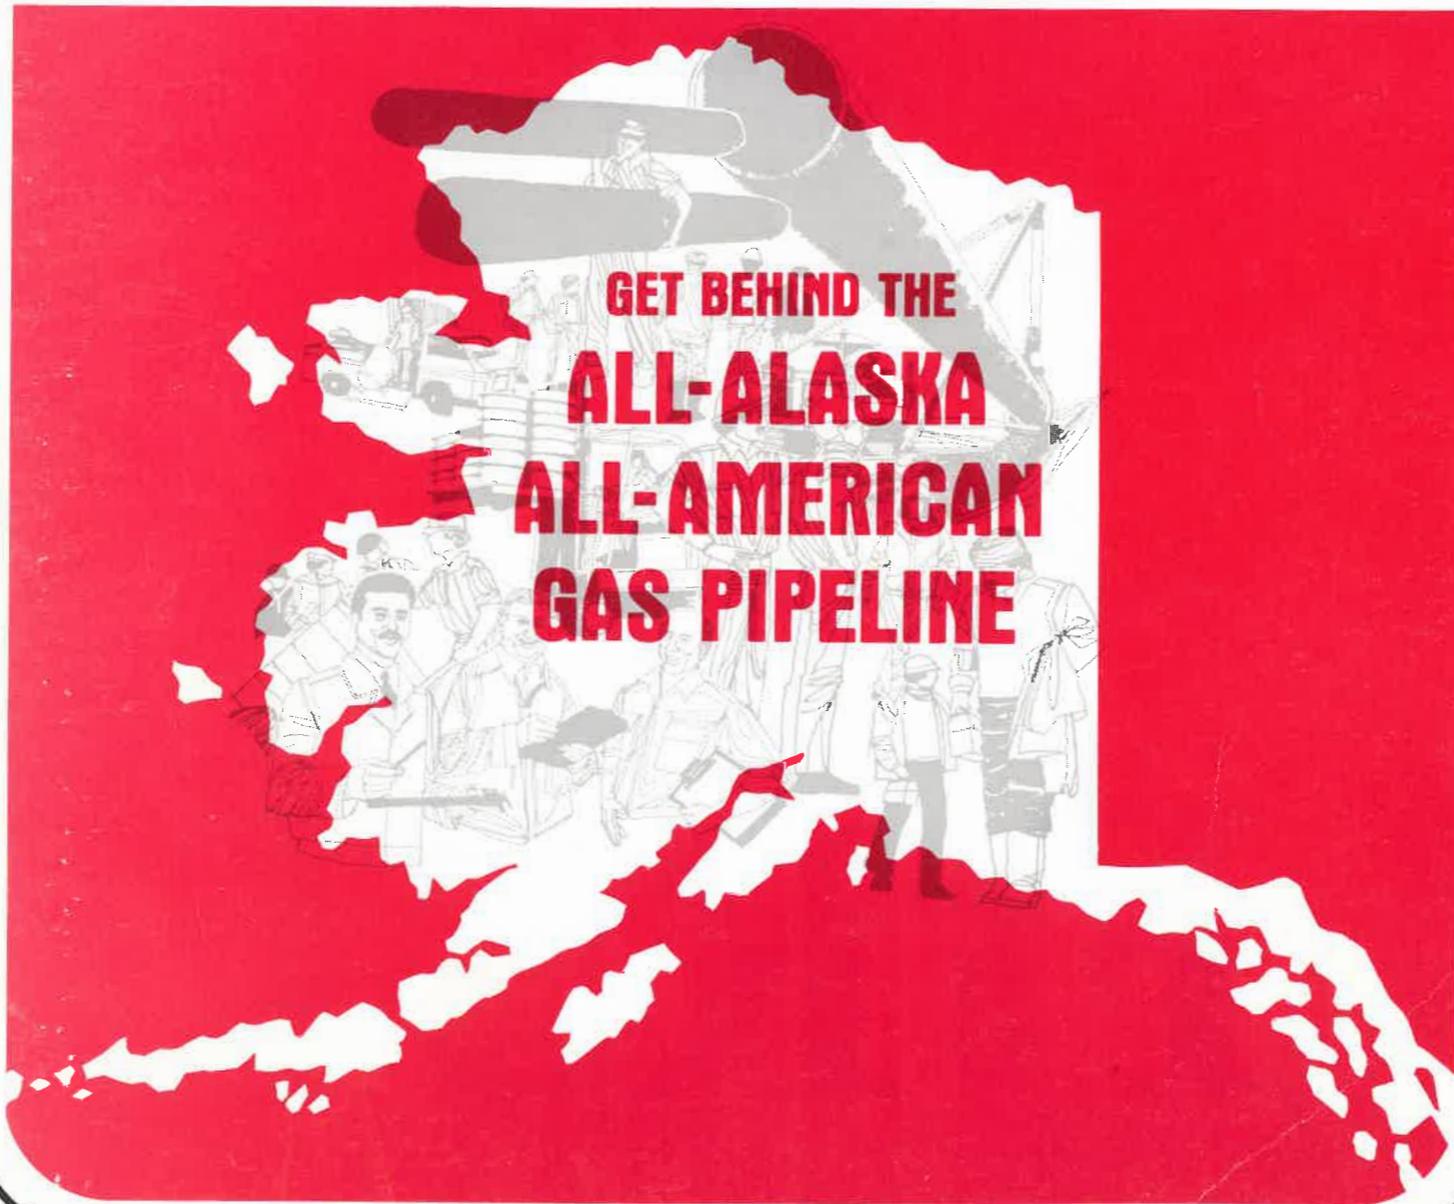

- Streamline permitting
  - Remove red tape
  - Eliminate duplication
-
